

AIM: What was the impact of European imperialism in Africa?

Read the following statements and then place each statement under its appropriate heading:

Europeans claimed control of most of the lands and resources of Africa.

2. Native Africans were treated socially inferior to the Europeans.
3. European domination led to the downgrading of the African way of life.
4. New political boundaries were drawn by the Europeans without regard to Africa's traditional ethnic or cultural boundaries.
5. Europeans brought modern medicine and improved nutrition to Africa.
6. European made improvements in transportation and communication.
7. Many native workers were forced to work long hours for low pay.
8. New opportunities were opened for the Africans in education and career choices.
9. From the Europeans, the Africans learned to grow oil palm, cacao, peanuts, cotton and other crops.
10. Europeans favored segregation in certain parts of Africa.
11. A colonial landholder would select a promising native worker, teach him a little about "civilization" and send him back to his tribesmen to tell them of the kindness of his master.
12. The African eventually turned their new found knowledge into a way of asserting their own power and tradition.
